The **Stassen Plan** of marketing spring-flowering bulbs is offered to you as the most direct and practical means of securing the world's finest bulbs. For centuries Holland has been known as the bulb center of the world. Through our connections there we are able to send you bulbs *grown and packaged* in Holland. They are produced by the world's foremost growers who have generations of experience behind them—men who take pride in their work and who are always striving to better their product. Send us your orders and we will send you the bulbs just as they come to us—*grown and packaged* in Holland.

Botanical Tulips

The exceedingly interesting Tulips illustrated in their brilliant colors on page 1 are April-flowering and low-growing. They are most adaptable to planting in groups, but especially in the rock garden. **Cesar Franck** distinguishes itself by its beautiful form and contrasting colors. **Johann Strauss** has striped foliage. **Fusilier** bears 4 to 5 flowers on a stem. **Red Emperor** surprises you by its enormous flowers and brilliance of color. **Kaufmanniana** is the famous Waterlily Tulip, the starry flower almost lying on the ground. Botanical Tulips prefer a sunny, sheltered location where they can be left alone to bloom year after year, without any care. They lend themselves, therefore, specially to combination planting with other permanent bulbs, as suggested.

Rainbow Mixture ^{OF} DARWIN TULIPS

We would like to have our customers get the greatest possible enjoyment from Stassen bulbs, and for that reason we stress over and over throughout this catalog an important point: It is much better to plant bulbs in groups rather than in long straggly lines. To get the best effect, use only one variety or color in each group. This is a fundamental landscaping principle which is very easily followed but which a great many people seem to overlook.

DARWIN TULIPS Grouped by Color

Seven of the finest shades of Darwin Tulips at very advantageous prices. This offer by color is for those garden owners who prefer a certain color but who leave the choice of variety to us.

	12	100
Blood-Red.....	\$0 85	\$6 25
Bright Scarlet.....	80	6 00
Pure Yellow.....	85	6 25
Snow-White.....	90	6 50
Lavender-Blue.....	90	6 50
Soft Pink.....	80	6 00
Maroon-Black.....	85	6 25

For flower lovers who prefer various colors mixed together instead of one-color groups, here is an inexpensive Rainbow Mixture of the five main colors with their many different variations. Besides the beautiful effect it creates in the garden, it gives a wealth of flowers for cutting.

COLLECTION 7

10 Bulbs each of the seven Darwin colors as listed to the left

Separately packed and labeled

70 for

\$4.50

Everyone recognizes Holland bulbs as the best in the world. They are the product of centuries of specialization, for the art of growing them is passed on from one generation to the next in the families who practice it. No machines are used on the Holland bulb farms that might cause injury to the bulbs. Each bulb is planted by hand, cultivated by hand and dug by hand—a real labor of love that results in each bulb being a perfect specimen capable of superior performance.

QUEEN OF THE NIGHT. One of the darkest Tulips ever introduced. A really black Tulip of rare beauty. The large flower is held on a strong, straight stem. Lends itself to magnificent color combinations. Height 30 inches.

12 for \$1.00; 100 for \$7.25

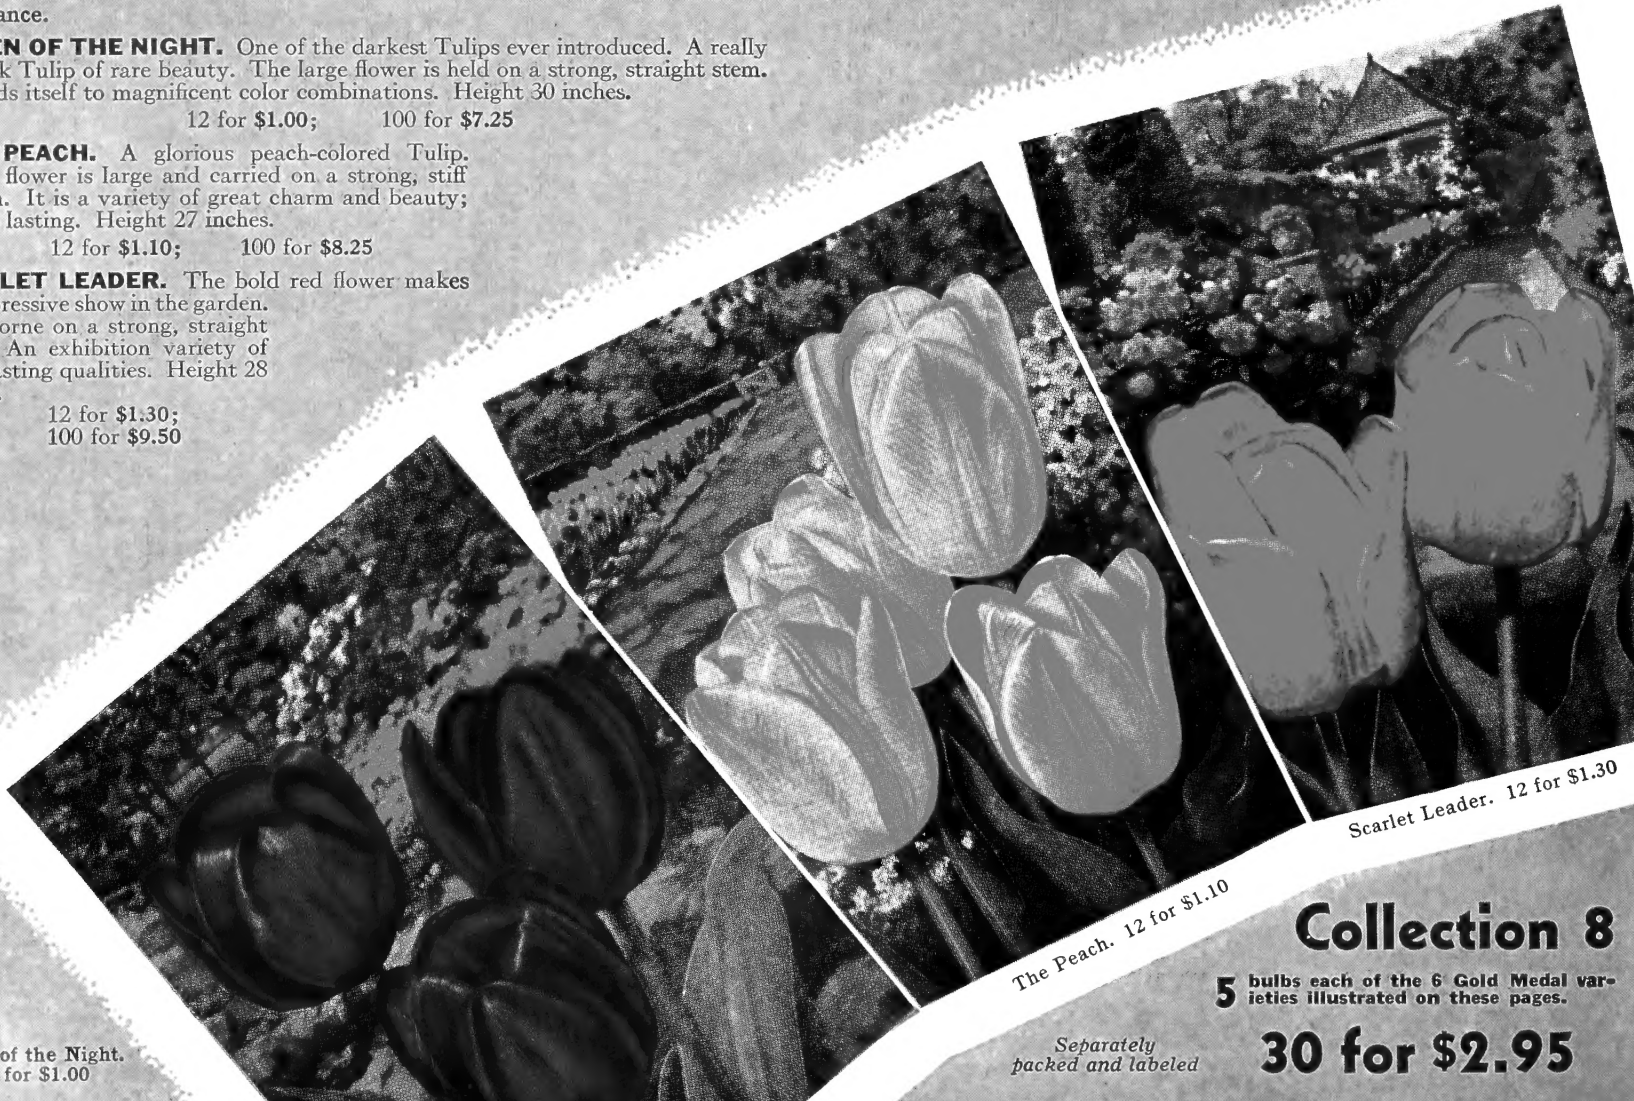

THE PEACH. A glorious peach-colored Tulip. The flower is large and carried on a strong, stiff stem. It is a variety of great charm and beauty; long lasting. Height 27 inches.

12 for \$1.10; 100 for \$8.25

SCARLET LEADER. The bold red flower makes an impressive show in the garden. It is borne on a strong, straight stem. An exhibition variety of long-lasting qualities. Height 28 inches.

Varieties

Perhaps more than any other flowers Darwin Tulips symbolize the return of life to the seemingly dead earth. The spell of drab winter is suddenly and miraculously broken by these radiantly beautiful flowers, which make such glorious pictures to celebrate the beginning of a new garden season. The varieties we list here are the very best and most stately Darwins now being produced and we are certain you will be pleased with them. They ask for so little attention that every home should have a colorful display.

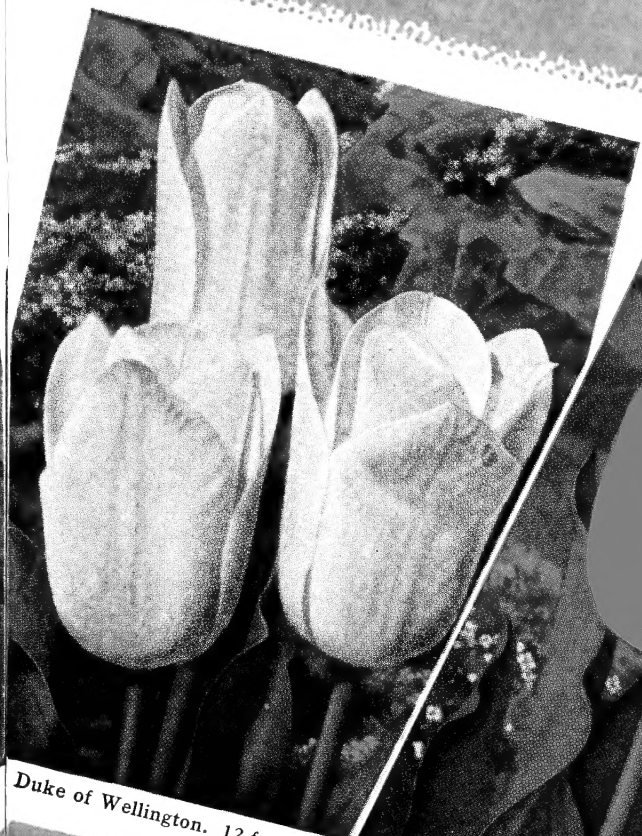

DUKE OF WELLINGTON. A delightful pure white flower of great beauty and substance; white anthers and white base. The large, beautifully shaped flower will last three weeks in the garden or when cut. It is a gem in any collection. Height 30 inches. 12 for \$1.50; 100 for \$11.25

SUNKIST. The finest of yellow Darwins. Its unusually thick petals enable this variety to survive the most undesirable weather without damage. Height 30 inches.

12 for \$1.15; 100 for \$8.50

THE BISHOP. Beautiful deep heliotrope. It is a tall, stately variety, one of the finest Tulips cultivated. Height 30 inches.

12 for \$1.40;
100 for \$10.50

Darwin Tulips are large and cupped, with very long stems that make them perfect for cutting also. Against a dark hedge Darwins make an unforgettable picture; use them too, in clumps in the perennial or shrub border and in beds by themselves. Borders of pansies and forget-me-nots set them off to perfection.

Long-Stemmed DARWIN VARIETIES

Collection 14

The garden can be made into a veritable fairyland by scattering the various sorts in groups about the grounds.

3 bulbs each of the 20 Darwin varieties listed at right

60 for \$4.85

Here are some of the tried and true Darwins that have proved their reliability and popularity over the years. Each is a real "personality" that you should get acquainted with. Size, shape and color of each one is distinct, making possible many lovely combinations: Darwins with other Darwins; Darwins against a dark hedge; Darwins in clumps in the perennial or shrub border—in any case, you can hardly go wrong! Besides the ten Blue Ribbon varieties illustrated on the previous pages, the following ten magnificent varieties give you the opportunity to learn to know all the worthwhile Darwin varieties. They are all outstanding in size and shape of flower.

	12	100
Aristocrat. Silvery rose, shading into carmine-rose toward the center. The aristocrat of the new Darwin varieties.	\$1 35	\$9 75
Bleu Aimable. Bright violet-purple, shaded steel-blue. Nicely shaped flower.	1 00	7 25
Charles Needham. Brilliant scarlet. One of the finest reds.	1 20	8 75
Clara Butt. Beautiful salmon-pink. Favorite pink Tulip.	85	6 25
Eclipse. Glowing deep blood-red. An elegant, very attractive, large flower.	1 20	8 75
Farncombe Sanders. Bright red; inside vivid cerise with white base, marked blue.	85	6 25
Gloria Swanson. A giant, crimson-red flower with blue base. Strong stem.	95	6 75
Golden Age. Deep golden yellow; yellow base and anthers.	1 10	8 00
Insurpassable. Lively lilac, turning slightly lighter toward edges. Very large flower of great substance.	1 10	8 25
La Tulipe Noire. Velvety deep maroon-black.	1 00	7 25
Mr. Van Zyl. One of the choicest pinks. Delicate carmine-pink with broad silvery margin.	1 00	7 50
Mrs. Grullemans. Lovely pure white, large flower. Light sulphur-yellow anthers.	1 10	8 25
New Orleans. Bordeaux-red. Unsurpassable beauty.	95	7 00
Niphetos. Ivory-yellow with light base and anthers. Large flower of great substance.	95	7 00
Pride of Haarlem. Cerise with blue base. Large flower on tall stem.	90	6 50
Pride of Zwanenburg. Very pleasing old-rose turning lighter toward the edges. Very large, attractive flower.	1 35	9 75
Princess Elizabeth Maximus. Vivid rosy pink. A descendant of the well-known Princess Elizabeth.	1 00	7 50
Scotch Lassie. Deep lavender; inside a still deeper tone of lavender with striking blue base.	1 00	7 50
Tubergen's Glory. Sparkling bright rosy red; when fully open displays a distinct blue base. Large flower on strong stem.	1 25	9 00
Zwanenburg. Pure white flower of wonderful texture.	1 10	8 25

May-Flowering TULIPS

Darwins might also be listed as May-flowering Tulips, but because they are so outstanding we give them especial prominence in our catalog. Under the heading "May-flowering Tulips" we list other classes that bloom at the same time as the Darwins. All these classes may well be grown together. Cottage, Breeder, Lily-flowering Tulips are all tall growing, from 26 to 36 inches. All bloom in May, and their varying forms and colors blend beautifully.

Deluxe Mixture

of tall-stemmed, elegantly
shaped, May-flowering
Tulips

100 for \$6.75
12 for 95c

Lily-Flowering Tulips

These are particularly dainty because the flowers are long and slim, with the petal tips flaring outward. The colors are mostly pastels. Quite distinct in form, making a nice contrast with Darwins and Breeders. Height 28 to 32 inches.

	12	100
Martha. Cerise-red, with blue edge, white center.	\$1 10	\$8 00
Sirène. Inside delicate pink; outside carmine-pink.	1 10	8 00
White Duchess. Snow-white flower of graceful form.	1 00	7 50
Yellow Marvel. Deep golden yellow	1 10	8 25

COLLECTION 16

5 bulbs each of the above 4 Lily-flowering varieties

20 for \$1.70

Separately packed and labeled

Cottage Tulips

Originally this class was composed of more slender flowers in lighter colors than the Darwins. Now, because of hybridizing, it is sometimes difficult to distinguish the two types. In general, Cottage Tulips are somewhat longer and more pointed. Height 28 to 32 inches.

	12	100
Carrara. Pure white; large, broad cup.	\$0 90	\$6 50
Dido. Orange-red changing to orange-yellow.	85	6 25
Golden Harvest. Deep lemon-yellow throughout.	85	6 25
Marjorie Bowen. Buff and salmon.	85	6 25
Marshall Haig. Bright scarlet with yellow base.	1 00	7 50

Breeder Tulips

For those who especially admire dull, rich, muted tones there is nothing to take the place of Breeder Tulips. Majestic is the word for them. They are commanding in themselves and they also serve to point up the brighter and lighter colors of Cottage and Darwin varieties. Huge, oval flowers on stems 28 to 32 inches tall.

	12	100
Georges Grappe. Uniform tone of violet-blue.	\$1 00	\$7 50
Indian Chief. Indian-brown, flushed coppery brown.	1 10	8 25
Jessy. Chestnut-brown, shaded purple with bronze edge.	1 00	7 50
Louis XIV. Purplish heliotrope with broad bronze edge.	1 10	8 25
Mr. J. J. Bouwman. Orange-red with narrow yellow edge.	95	7 00

May-Flowering Tulips and Azaleas — A Beautiful Sight!

We do not even sell Azaleas, but we cannot help pointing out what amazingly beautiful effects may be had by interplanting Tulips and Azaleas. The rich, clear, true tones of the two seem to be made for each other, and any gardener who fails to take advantage of their natural affinity is missing a wonderful opportunity to have an eye-catching spring display. May-flowering Tulips, which include the great Darwin, Cottage and Breeder families, bloom at the same time as Azaleas. If some of them do come a little earlier than the Azaleas show color, the rich dark green shrub foliage makes a perfect background for them.

The experts tell us that in companion plantings it is a good plan to introduce flowers of different form and harmonizing color. There is no difficulty on this score with Tulips and Azaleas, for as the accompanying photograph shows, they are entirely distinct in form yet blended perfectly in tone. And as the Tulip foliage dies down after the blooming period is over, the Azalea bush helps to cover it. The bulbs need not be taken up after flowering.

MEDIUM EARLY-FLOWERING TALL-STEMMED TULIPS

We are offering below a selection of five tall varieties of Tulips which bloom a week or more ahead of the Darwin and other May-flowering varieties. The advantage of planting these early-flowering Tulips is that the flowering period of the long-stemmed Tulips is extended that much. Blooming earlier, they also stay in bloom longer. Each variety offered possesses a beautiful contrasting color combination, which renders them most adaptable to beds, groups and borders.

An effective planting of Narcissus, Daffodils and Early Tulips.

Garden or Bedding HYACINTHS

Any flower fancier will impatiently watch the development of these beautiful flowers and enjoy with ever-returning enthusiasm the tender beauty of the bell-shaped, highly perfumed flower spikes. Bedding Hyacinths are medium-sized bulbs specially suitable for outdoor bedding. The fine spikes of bloom are carried on strong stems and make a beautiful display. They are lovely combined with other spring bulbs such as Early Tulips and Daffodils.

We offer at special prices the following combination plantings, which will give you a wonderful display each spring for several years to come.

INEXPENSIVE IRIS MIXTURE

Plant them generously. Produce a wealth of flowers for cutting.

25 for 85c; 1000 for \$27.50;
100 for \$3.00

Daffodils — Narcissus

The dancing Daffodils are a marvel of beauty in earliest spring. Their varying tones of yellow, from softest cream to boldest gold, seem especially appropriate to the new season. Daffodils and Narcissus do well in almost all soils and locations and are a permanent addition to the garden. Plant them where they can be left alone to increase from year to year.

GIANT TRUMPET DAFFODILS

The giant trumpet Daffodils seem to be "blowing their own horns," and well they may, for they are among the most cheering and lusty of all spring flowers. Hardy and dependable, they lead the parade of Narcissus, making a superb picture by themselves or combined with other early-flowering bulbs.

THE PINK DAFFODIL (Mrs. R. O. Backhouse)

Its charming color makes it a choice item in any planting. The flowers are of exceptional substance and are long lasting.

3 for 75c; 100 for \$19.00;
12 for \$2.50

DEANNA DURBIN

A group planting of this beautiful new variety on the bank of a stream, or tucked between shrubs and evergreens, makes one of the loveliest of spring pictures.

3 for 50c; 100 for \$13.00;
12 for \$1.75

Unusual Spring-flowering Bulbs

Here are listed a number of bulbs small in stature, but they can bring a lot of charm and personality to any garden where they are planted wisely. By "wisely" we mean that they should never be scattered forlornly around; they need to be massed in order to make a showing. It will pay you to become acquainted with these little treasures. Try your hand at combining them with other spring bulbs, perennials and even shrubs.

ANEMONES. Exceedingly brilliant flowers, excellent for cutting. They like to be planted about 2 to 3 inches deep in a cool, moist but well-drained soil. For northern states we advocate early spring planting; for the southern sections, fall planting. They come in many colors.
12 for 60c; **100 for \$4.00;** 25 for \$1.10

CAMASSIA ESCULENTA. Forms flower spikes 2 feet high, bearing a cluster of star-shaped flowers of rich purple. Very showy in mass planting. Do well in all locations, and naturalize readily.
12 for 35c; **100 for \$2.00;** 25 for 60c

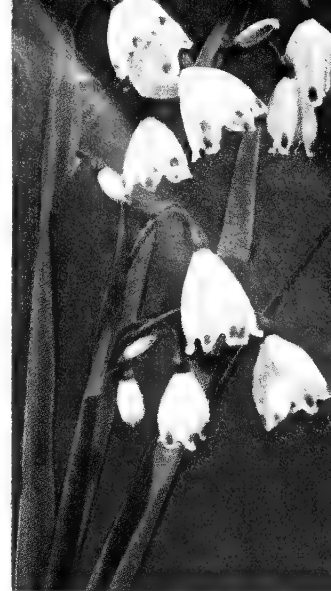

FRITILLARIA MELEAGRIS (Guinea-Hen Flower). In April and May appear pendent, bell-shaped flowers in curiously checkered shades of yellow, white, purple and brown, on stems 12 inches tall. Mixture of colors.
12 for 60c; **100 for \$4.00;** 25 for \$1.10

IXIAS (Corn Lilies). Produce tiny bouquets of numerous little flowers on thin stems. Pretty planted in groups, they are also fine for cutting, keeping in water a long time. Bloom in May and June. Require protection in cold climates.
12 for 35c; **100 for \$2.00;** 25 for 60c

LEUCOJUM (Snowflake). Similar to the snowdrop but larger and stronger. They can be left undisturbed for many years, increasing into great clumps, from which arise the blooms in late April.
12 for 80c; 25 for \$1.50;
100 for \$5.75

FRITILLARIA MELEAGRIS

LEUCOJUM

DOUBLE RANUNCULUS. The spider-shaped bulbs produce large, turban-shaped heads of fully double flowers in a great range of colors. For northern states we advocate early spring planting; for southern states, fall planting.
12 for 60c; **100 for \$4.00;** 25 for \$1.10

ROCK-GARDEN COLLECTION 45

INEXPENSIVE MIXTURE OF CROCUS

For flower lovers who prefer various colors mixed together instead of one-colored groups, here is a mixture in which appear several colors with their many variations.

25 for 80c; 100 for \$2.95; 1000 for \$27.50

SCILLA CAMPANULATA. Erect spikes of open campanulata flowers. Valuable for wild gardens and woodlands, where they should be largely naturalized. Bloom in May.

BLUE, WHITE and PINK.

12 for 45c; 100 for \$3.00; 25 for 85c

SCILLA CAMPANULATA, Mixed Colors. What is more beautiful than patches of blue, white and pink mixed on the ground while shrubs and trees show their first fresh green foliage? Wood Hyacinths produce this magnificent effect in the spring garden. Plant them in generous quantities, especially between trees and under large shrubs. They do very well in light shade. Left undisturbed year after year, they return in ever greater numbers.

12 for 40c; 25 for 80c;
100 for \$2.75

WINTER ACONITES (*Eranthis hyemalis*). The buttercup-like flowers arise above a dark green rosette of foliage 3 inches above the ground. They bloom a few weeks before the crocus. Especially recommended for naturalizing woodlands and rockeries.

12 for 55c; 25 for \$1.00;
100 for \$3.75

CHIONODOXA (Glory-of-the-Snow). Will produce in early spring an abundance of pretty, star-shaped, lively blue flowers with white hearts. Do well in sunny and shady positions. Left undisturbed, they will increase rapidly in both number and size.
12 for 35c; 100 for \$2.00; 25 for 60c

GRAPE HYACINTHS (Muscari). The Grape Hyacinth is a favorite among our early spring-flowering bulbs. You can make the most beautiful edgings and groups with them; they look charming in the rock garden and so pretty beneath trees and shrubs. Grow 6 inches tall and bloom in April and May.

Armeniacum. Several large spikes of clearest blue flowers.

12 for 35c; 100 for \$2.00; 25 for 60c

Album. Pretty white, contrasting with the blue variety.

12 for 60c; 100 for \$4.00; 25 for \$1.10

PUSCHKINIA LIBANOTICA. Produces a wealth of creamy white flowers marked with beautiful china-blue stripes. They flower abundantly for a lengthy period, in sunny as well as shady positions, and may be left undisturbed for years. Grows 5 inches tall and blooms in April.

12 for 35c; 100 for \$2.00; 25 for 60c

SCILLA SIBIRICA (Blue Squill). Produces several spikes of intense blue flowers 4 inches tall. Ideal for naturalizing everywhere. Blooms in April.

12 for 40c; 100 for \$2.75; 25 for 80c

SCILLA SIBIRICA ALBA. A beautiful white form of the above.

12 for 55c; 100 for \$3.75; 25 for \$1.00

SCILLA, SPRING BEAUTY. A new variety similar to *Scilla sibirica* but distinguished by its heavy, well-filled spikes of deep blue. Also ideal for indoor culture.

12 for 55c; 100 for \$3.75; 25 for \$1.00

SNOWDROPS (*Galanthus nivalis*). Their lovely, white, nodding blooms appear before the frost is out of the ground. For nice effect they must be planted thickly under trees and shrubs and in rockeries where they will soon make intimate colonies. Once planted they remain for years.

12 for 55c; 100 for \$3.75; 25 for \$1.00

DOUBLE SNOWDROPS. The flower cups of these are filled with many small white petals.

12 for 75c; 100 for \$5.25; 25 for \$1.40

Mixture of "HERALDS OF SPRING" for Naturalizing

An advantageous offer of early spring-flowering bulbs for naturalizing. In this mixture are represented many sorts of "Heralds of Spring." No garden, however small, should be without them. Planted together they achieve a picturesque show for many weeks. Do not miss this opportunity of delight—plant as many bulbs as space permits. They take very little room and once planted, they reappear and bloom each spring.

25 for 65c; 100 for \$2.25;
1000 for \$21.00

Heralds of Spring

The finding in bloom of the "First Flowers of Spring" is a great event and one of the genuine delights of life. No garden, however small, should be without these "Heralds of Spring." Do not miss this opportunity of delight. Plant as many bulbs as space permits. Pictured below is a galaxy of spring beauties. Leave them in peace and they will reappear every year and multiply fast. Your neighbors will ask you what they are—so be ready with the names.

Hardy
**AMARYLLIS
LYCORIS →**
(Magic Lily of the Orient)

These bulbs are among the rarest and most beautiful of all bulbous subjects. The long leaves, similar to Daffodil leaves, appear in early spring. They mature and die down in early summer only to be followed by the flower spike in August. The soft pink, lily-like flowers are carried several in a cluster on a stem sometimes as much as 3 feet tall. Pleasant perfume is an added attraction. Because the foliage is gone by the time the flowers come, it is very important to plant Lycoris where the leaves of other plants will help to cover its bare stems. A perennial border is a good place for it. They are perfectly hardy and will thrive under any normal garden condition. Select an exposed, sunny location free from tree roots. Prepare the soil by spading it to a depth of 12 inches and work in some bonemeal or well-rotted manure. Space the bulbs 12 inches apart, for they increase rapidly and will soon become crowded if planted too close. Cover the bulbs with 3 inches of soil.

Each 50c; 3 for \$1.35; 12 for \$5.00

HARDY LILIES

The handsome flowers combine well with various perennials, and their delicious fragrance is unmatched. When well established, Lilies increase in beauty each year.

	Each	3	12
REGALE . White, outside lilac-pink. Blooms July. Height 3 to 5 feet.....	\$0 35	\$0 95	\$3 00

Indoor Bulbs FOR WINTER FLOWERING

The bulbs offered on this page are easily grown for winter blooming in the greenhouse, the conservatory, or in any room where temperature and moisture can be controlled.

PAPER-WHITE NARCISSUS. The popular white, sweet-scented flower for growing in the house, either in soil or in pebbles and water. To have a continuous display, make successive plantings two or three weeks apart.

12 for \$1.20; 25 for \$2.35; 100 for \$9.00

IRIS RETICULATA (Sweet-scented Iris). This miniature Iris of deep purple with golden spot can be forced into bloom with the greatest of ease about Christmas time. Plant 6 bulbs in a 4 to 5-inch pot. They grow 6 to 8 inches tall. Also excellent for blooming in early April in the rock garden.

12 for 95c; 25 for \$1.75; 100 for \$6.75

Collection 57 6 bulbs each of 4 Indoor Crocus colors 24 for \$1.25

Amazing Christmas Amaryllis

Especially treated in Holland for early flowering here. Guaranteed to bloom within 6 to 8 weeks after planting. It will be possible to have flowering plants at Christmas. The bulbs arrive from Holland about the middle of October and will be shipped to you separately from your other bulb order in October. This special strain of Amaryllis produces huge flowers of stately form. Do not confuse this special strain with ordinary Amaryllis. Soon after planting these specially prepared bulbs, the heavy flower bud will appear. It is a fascinating thing to watch the spike push its way upward day by day, then to see the flower buds emerge and gradually open. Four on a stalk is the usual number. Do not keep the bulb in the dark at first; just put it in a warm, light room and keep it watered.

Magnificent DEEP RED AMARYLLIS.

3 for \$7.90; 12 for \$28.00 Each \$2.75

Flawless Pure White AMARYLLIS.

Each \$3.00; 3 for \$8.55

STASSEN
